What is the Preventistry program?

Two diseases cause almost all dental problems – caries, which cause tooth decay, and periodontal, also known as gum disease. ***And both are almost 100% preventable.***

The goal of Delta Dental's Preventistry approach is to prevent more serious problems in the future by ensuring patients at high risk for dental disease get the treatment they need, when they need it.

Members at high risk may also be eligible to receive additional benefits including:

- **Antimicrobial mouth rinse**
- **Prescription strength fluoride toothpaste**
- **Four periodontal cleanings per year**

What is Rollover Max?

Delta Dental's Rollover Max allows qualifying members to carry over a portion of unused benefit dollars into subsequent years. The program rewards members who maintain good oral health. Here's how it works:

- If you have at least one cleaning or checkup within the calendar year, and
- Your total plan year claims do not exceed \$700
- You can roll over \$500 toward the next year's annual maximum

The maximum accumulated rollover total is capped at \$1,250.

Manage Your Oral Health Anywhere With the Delta Dental Mobile App

With the Delta Dental's mobile app, you can find a network dentist, access your ID card, view claims, check your Rollover Max balance and much more, right on your smartphone. The app even has a toothbrush timer built in to make sure you keep up with your daily oral health routine!
